OUR VISION

- To deliver the best rewards at minimum possible risk.
- To cater to every individual across the globe seeking direction in their investments and ensuring substantial growth in their finances in a short time span
- To see NEVIS as the most trusted and sought after brand for all financial needs
- Being one of the most trusted business in creating passive income.

INTRODUCTION

Nevis has its own deflationary cryptocurrency token on the Binance Smart Chain (BSC) known as **"NEVIS TOKEN"** which is listed on the largest decentralized exchange in the world - PancakeSwap. The NEVIS TOKEN is similar to a stock of a company, where the price fluctuates on its buying and selling.

Nevis also has its own staking platform known as **"NEVIS TREASURE"**. Where a person can lend his BUSD stablecoin to the platform and in return he will receive BUSD stablecoin over a period of 365 days.

NEVIS TOKEN

BUY Fees - 5% = 5% NEVIS TREASURY

SELL Fees - 5% = 5% NEVIS TREASURY

NEVIS TREASURE has its own token known as the NEVIS TOKEN which is traded on the decentralized exchange. NEVIS TOKEN has a **5% fee** charged every time a token is bought or sold which is directly added to the **NEVIS TREASURY**

NEVIS TREASURE

Over years of investing our time and resources on research on various projects using blockchain technology, NEVIS team birthed forth the revolutionary concept, **NEVIS TREASURE**, a staking platform on blockchain technology.

NEVIS TREASURE is a **365 days smart contract**. When you stake, a contract is created for 365 days, wherein you are paid back your principal and rewards on a **daily basis**.

For instance, an amount of 100,000 BUSD, at the end of 365 days will yield a total, including the principal, 178,000 BUSD. which is a total annual reward of **78%**.

This includes 10% deduction in platform and withdrawal fees respectively.

CALCULATION

INVEST 100,000 BUSD
- 10,000 (Deposit Fee)

90,000 BUSD

GET 0.6027% on your 90,000 BUSD
Daily for 365 days

90,000 x 0.6% = 542 BUSD
- 54 (Withdrawal Fee)

488 BUSD DAILY

488 BUSD X 365 DAYS = 178,000

GET 178,000 BUSD

78% ANNUALLY

[HTTPS://WWW.NEVIS.INVESTMENTS](https://www.nevis.investments)

HOW DOES IT WORK?

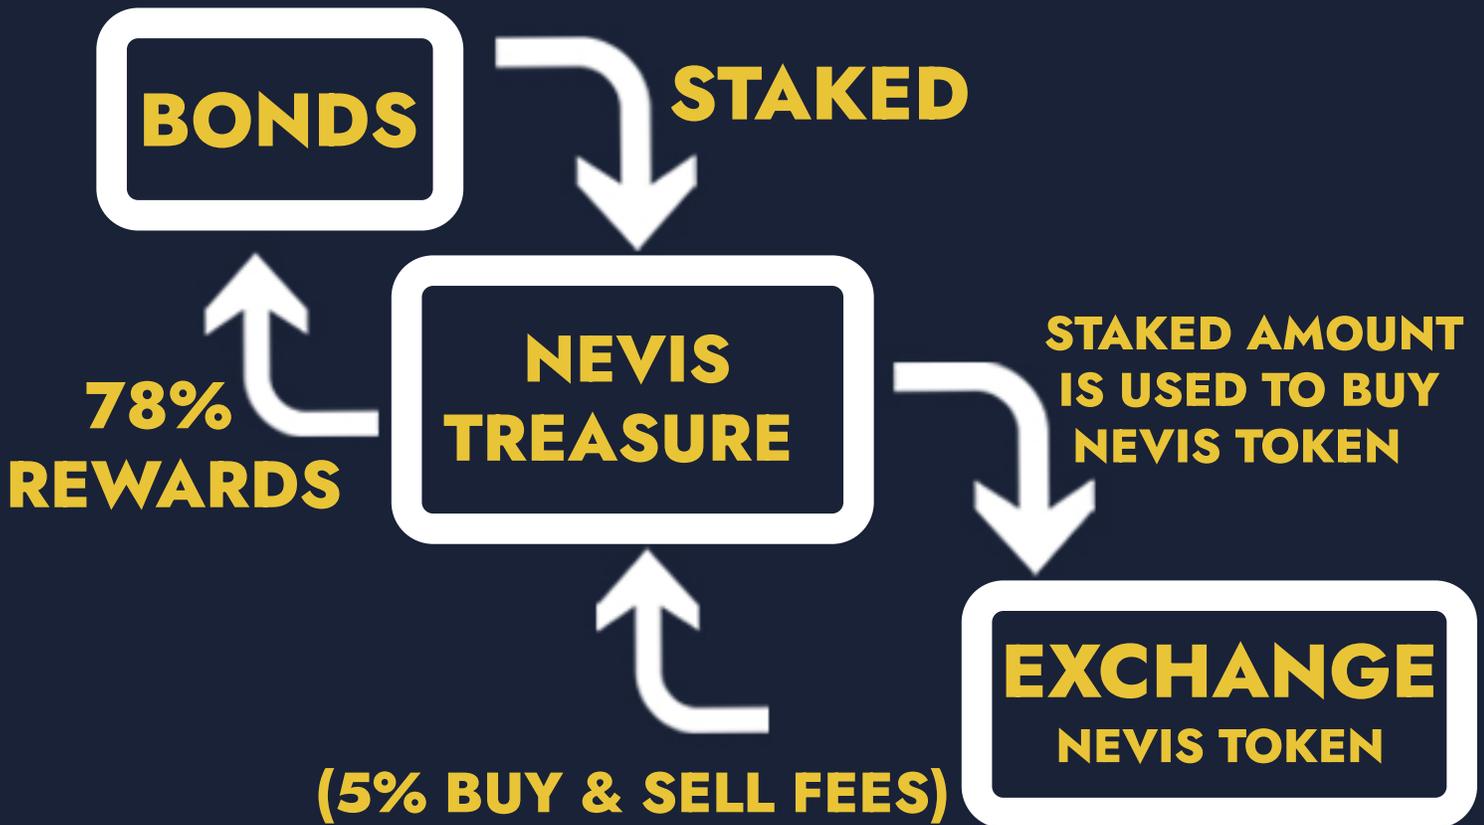

Unlike traditional banks run by government and private agencies, decentralized finance allows multiple ways to generate revenue, using blockchain technology, a transparent system.

NEVIS TOKEN has a **5% fee** charged every time a token is bought or sold on the exchange. This fee is directly added to the **NEVIS TREASURE**.

The activity of buying and selling of the NEVIS TOKEN creates revenue for the NEVIS TREASURE on a regular basis. The rewards generated through this process are further shared to bond holders which yields them higher rewards.

[HTTPS://WWW.NEVIS.INVESTMENTS](https://www.nevis.investments)

FUNDS FLOW

NEVIS TREASURE

BOND (365 Days Smart Contract)

When you bond your BUSD in the Nevis Treasure, in return you will be paid out **0.6% daily in BUSD**. Now this amount which you will be paid out, includes your principal and your interest which you will be receiving for 365 days.

At the end of 365 Days the smart contract ends .

Note: There is a 10% fee while purchasing bonds.

CLAIM

You can withdraw your rewards directly into your wallet by clicking on the CLAIM button.

There is a 10% fee for claiming your rewards.

[HTTPS://WWW.NEVIS.INVESTMENTS](https://www.nevis.investments)

NEVIS TREASURE

PAYOUTS

The payouts are the amount of STABLECOIN that you have claimed.

MATURITY

The maturity is the maximum amount of rewards that you will receive from your bonds deposited overtime. To increase your maturity amount, it is recommended to deposit BUSD.

[HTTPS://WWW.NEVIS.INVESTMENTS](https://www.nevis.investments)

NEVIS TREASURE

REFERRAL

The referral rewards system is completely voluntary, however by utilizing the referral system, not only are the investors rewarded for building the project, but newcomers are provided a great incentive to participate.

When a referee enters the referrer's wallet address and then bonds in the Nevis Treasure, the referee immediately receives a one time 5% of their deposited amount in their wallet and the referrer will daily receive 20% of the referee's daily rewards for a total of 100 days.

To receive referral rewards, the referrer has to be an investor of Nevis Treasure first. If the referee has entered a referrer wallet address who is not investor of Nevis Treasure, both the referrer and the referee will not receive the referral rewards.

[HTTPS://WWW.NEVIS.INVESTMENTS](https://www.nevis.investments)

For Example: When a referee enters the referrer's wallet address and then bonds 100,000 BUSD in the Nevis Treasure,

REFEREE - The referee will receive 5000 BUSD, which is **5%** of their investment. The referee will receive this reward only for the first time they bond. They won't receive any referral rewards on their future deposits. The referee needs to enter the referral's wallet address only once, as the system automatically catches the referrer's address for future deposits.

REFERRER - The referrer receives **20%** of the referee's daily rewards for 100 days.
So, in the case of 100,000 BUSD deposited, the referee would be receiving daily rewards of **542 BUSD** (100,000 - 10% Fees X 0.6027%).
and the referrer would receive **108 BUSD** (542 x 20%) daily for 100 days.
